

Presents  
**Professional Voice Over Training**

**Top 3 Reasons to Get into Voice Overs**

Very little overhead: I started with a \$90 USB Microphone, some free recording software, and was getting paid to do voice overs.

Opportunities are available all over the planet: One of my best clients is in Dublin Ireland. The ability to record from home and get paid via Pay Pal makes it easier than ever to break into this field.

Clients prefer working directly with voice over talents: More and more clients are skipping the talent agency process because it's cheaper and faster to work directly with you, the voice talent!

**Top 3 Reasons to Train with Terry Daniel**

Internationally Recognized Voice Over Talent and Coach with over 20 years experience in the industry

**Here's what others are saying:**

"I researched a lot of coaching programs and Terry's had what the others lacked. One on one personal coaching, recorded sessions sent back to me as MP3 files, Voice Over Lab practicum sessions to get me comfortable recording and sending audio files to clients and get their feedback, I get to be on his tutorial list for life, and he produces two demos for me! I've already booked some voice over jobs and landed some fantastic audition opportunities! The value of his program is unsurpassed!"

– Laura Berscheit - Voice Over Talent- Minneapolis, MN

"Terry provides excellent instruction and possesses a wealth of practical and technical experience of great value to persons just starting out and voice over specialists in general. I highly recommend his training to anyone who is serious about this profession" – Eric Anderson – Ontario, Canada
